<b>Development Process</b>	Point locations were identified by PCPC by geocoding the street addresses of the schools. Information was collected from the School District of Philadelphia, the Archdiocese of Philadelphia, Pennsylvania Department of Education, and the private schools. Significant change from the last version: A large number public schools, private schools and archdiocesan schools closed or merged with other schools between 2011 and 2015. Also, several public schools were changed into charter schools during that period.
